Top Reasons Why You Should Use Stone-Coated Products

1. **Maintenance Free:** All products never require cleaning or painting. You can be assured of never having to clean, prep, or paint your pipes, vents, or other flashings. No UV deterioration or rust ever again!
2. **Durable & Strong:** Due to proprietary formulation of products, they will withstand hail, freeze, thaw and extreme heat.
3. **25 Year Warranty:** Products are backed by a 25 year product warranty.
4. **Aesthetic Appeal:** Products make all those unsightly vents and flashings completely blend in and additionally complement any roof or color. California Stone Coating, Inc. can create *Defender Series*™ products in custom colors and flashings, such as crickets and saddles.
5. **Fast, Easy & Universal Installation:** Products are universal for all standard types of installations, making them extremely fast and easy to install, with no special tools or equipment required.
6. **Time & Money Saving:** Because products are so easy to install, you will save time from spray painting, which means you will spend less money finishing your jobs.
7. **No leaks:** Flashings are sealed water tight at the seam. Various manufacturer's flashings leak that the seam of the cone leaks and spray paint cannot seal it.
8. **Affordable & Cost Effective:** Products are reasonably priced so that you can easily include them on every roof, giving the customer that final look of distinction.
9. **Marketing Edge/Your Personal Signature of Quality:** Products on all of your roofs, will give you a competitive edge over the rest of the competition while making it your personal signature of quality and a roof finished right. In turn you will gain referrals and build your business by just installing stone coated products on the roof.

- ✓ Match any color
- ✓ No painting
- ✓ Maintenance free
- ✓ Low VOC
